

University of Cologne, Faculty of Mathematics and Natural Sciences

Professor (W2) in Statistical Genetics/Bioinformatics

The Faculty of Mathematics and Natural Sciences of the University of Cologne invites applications for a tenured associate professorship (W2) in Statistical Genetics/Bioinformatics. The appointment will be in the Cologne Biocenter and the Cologne Center of Genomics (CCG). The successful applicant will have a strong record of academic achievements in statistical genetics/bioinformatics and expertise in the analysis of data obtained by next-generation sequencing technologies such as RNA-seq, ChIP-seq and genome wide re-sequencing data. He/she will build connections with the Cologne biological research community, and should preferably complement research activities at the CCG.

The successful candidate is expected to participate in the teaching programs of the Cologne-Bio-Center.

The University of Cologne is an Equal Opportunity employer and encourages applications from women. A related employment policy is in place for disabled applicants.

Applicants are requested to send a full CV, a complete list of publications, a statement of research interests and a selection of up to five reprints of publications by September 13, 2010 to

**The Dean of the Faculty of Mathematics and Natural Sciences,
University of Cologne, Albertus-Magnus-Platz, 50923 Köln, Germany**
